

## VR SOLUTIONS TO ELEVATE YOUR BUSINESS

Shape the future of how your company engages customers, develops products and trains employees.

### PROFESSIONAL-GRADE VR

Built to meet the needs of today's most demanding VR users, VIVE Pro™ is an easy-to-deploy VR system that scales with your business and provides the richest feature set for professional users. From seated environments to expansive, multi-user deployments, VIVE Pro delivers the highest fidelity, clearest audio and most immersive VR experience.

### 3D SPATIAL AUDIO WITH NOISE CANCELLATION

Hi-Res Certified headphones and 3D spatial integration with a built-in amplifier offers true-to-life audio with increased volume and resonance. Plus, environmental noise cancellation delivers an immersive experience without distractions from real-world noise.

### MODULAR TRACKING

Scale your tracking volumes – from seated to standing to full 10x10 meter (32'x32')\* room-scale tracking. SteamVR™ 2.0 allows you to add up to 4 base stations for wide-area tracking avoiding occlusion, and ideal for multi-user environments, all at sub-millimeter accuracy.

### EXPAND YOUR HORIZONS WITH WIRELESS FREEDOM

Lose the cable and enjoy true freedom with the most powerful VR wireless solution - VIVE Wireless Adapter.\*\* Unleash the full potential of your VIVE experience with Intel® WiGig™ technology. Coming Soon.

### HIGH RESOLUTION DISPLAY FOR PRECISE CLARITY

VIVE Pro features dual-OLED displays with an industry leading resolution of 2880 x 1600 pixels to make graphics, text and textures look perfectly crisp and clear, so you get the visual fidelity required for even the most demanding use-cases and environments.

### ENGINEERED FOR COMFORT

Featuring even-weight distribution and a 24% increase in face gasket surface area, VIVE Pro was ergonomically engineered to provide maximum comfort and flexibility, even with extended use. VIVE Pro is simple to get on and off and adjusts easily for head size, glasses and interpupillary distance (IPD).

### STAY SAFE WITH CHAPERONE

The integrated Chaperone system issues a warning when you get close to physical objects in the real world, so you can stay safe, comfortable and fully immersed in your VR experience.

### VIVE TRACKER ECOSYSTEM EXPANDS BUSINESS USE CASES

VIVE Trackers offer endless possibilities for mixed reality solutions. Simply attach the VIVE Tracker to any real-life object, such as a wrench or haptic device to bring the object into your virtual simulation, making the system ideal for motion capture, automotive, aerospace or heavy equipment simulation.

# VIVE ENTERPRISE ADVANTAGE

## Transform Your Business with VIVE Enterprise

Protect your investment. Advantage for VIVE Enterprise has you covered by offering commercial licensing, dedicated support, and service utilities for VIVE Pro. Advantage also offers purchase protection with tailored hardware warranties, limited down time, dedicated support and advanced device management utilities. Advantage can only be used when activated with VIVE Pro Headsets or Vive Pro Full Kits.

## SOFTWARE DISTRIBUTION AND DEVICE MANAGEMENT SYSTEM

VIVE Pro's enterprise-grade platform gives your business the flexibility and control it needs to manage software deployments and updates easily and securely. Our Device Management System monitors the VIVE systems on your network and allows you to deploy and manage software and device drivers for all devices behind a firewall.

## EXPEDITED RETURN AND REPAIR

If something goes wrong, we have you covered. We'll expedite the repair of your device as quickly as possible to minimize the impact to your business.

## PREMIUM SERVICE

Receive expedited support to handle all of your triage, diagnostic and repair needs. Expert customer service is available via live chat or email.

Enhance your business with VIVE Enterprise. Visit [enterprise.vive.com/eu](https://enterprise.vive.com/eu) to register.†
